

Public Comment on the Disciplinary Matrix

The Police Accountability Board (PAB) seeks feedback from the Rochester community on the Disciplinary Matrix.

A disciplinary matrix is a set of guidelines for the decision-making process in police discipline. Our proposed matrix provides guidelines for the Police Accountability Board to recommend disciplinary outcomes for sworn officers in the Rochester Police Department. A disciplinary matrix does not define how non-sworn officers are disciplined, nor does it replace the civil justice system, the criminal justice system, or other forms of democratic accountability. It is only one piece of an accountability system for policing.

You can learn more about the public input process and read the proposal here: www.rocpab.org

Public comments will be collected by online form, email, phone, mail, or drop box until **December 2, 2022**.

Provide your input here: How would you like to see the matrix changed?

For example, some respondents might want the outcomes for misconducts to be more or less punitive.

What would you like to see removed from the matrix?

For example, some respondents might want particular outcomes/penalties removed from the matrix.

What is your ZIP code? _____

Submit your input to the Police Accountability Board:
